NEWS AND COMMENT.

COL. JOHN A. BARRINGER, ex-mayor of Greensboro, and a prominent lawyer of that city, has announced that he will cross swords with Messrs. WOMACK and WINSTON for the Judgeship in that judicial district. The fight in that district will be a triangular one, and will by no means be lacking in interest. At this time there is additional evidence of a lively tilt in Judge WHITAKER'S district, whose seat will be contested by W. R. ALLEN, Esq., of Goldsboro.

THE long and bitter fight waged between the MOTT and anti-MOTT factions in the fifth district has been brought to a close, and JNO. B. EAVES—the not-afraid-of-the-devil EAVES—author of the celebrated circular in the last campaign, has "gone down to rise no more," while Dr. MOTT still walks the quarter-deck as "monarch of all he surveys," in the Republican Congress, and will name EAVES'S successor. This involves a combination between Congressmen EWART and EAVES, the destruction of which means war on somebody between now and the November election.

"UPWARD and onward" is the watchword of Winston, and this thrifty, prosperous and growing mountain metropolis has again covered herself with glory by voting, without a dissenting voice, two hundred thousand dollars for internal improvements. No town in North Carolina has ever enjoyed a more phenomenal growth than Winston, much of which is due to the indomitable energy and willpower of her citizens. While there is no such thing as a boom in the sense generally applied to the term, yet its growth is as steady and never-ceasing as the surging billows that lash the eastern shores of the mighty Atlantic.

"THE Federal election law as prepared by the Republican caucus disfranchised all persons who had taken up arms against the government. This clause was stricken out in committee.—*Wilmington Messenger.*" We desire that the people of the South should acquaint themselves with the above fact, and stand in readiness to defeat the aims and nefarious purposes of such cowards. Not content with cheating member after member from the South out of their legally elected seats in Congress, and stealing a whole State, they come to the front ready and willing to disfranchise every man in the South who took up arms against an invading and heartless enemy, in a cause they believed was just, more than twenty-five years ago. The people of the South are manly and brave, and though they did stack arms at Appomattox in '65, promising never to take up arms against the United States, to use the language of O'FERRALL, of Virginia, to BOUTELLE, of Maine, "it is not the act of a brave man to kick and cuff a fallen foe, but that of a coward."

"EX-GOV. W. W. HOLDEN, of Raleigh, is preparing a history of North Carolina during the reconstruction period, which is to contain much new information."—*Exchange.* It is true that we are to "judge not," but when we stop to consider how unfaithful he has been to every trust; how false he has been to every pledge; how low he has stooped to degrade our grand old commonwealth and disgrace the people of his native State; how he trampled under foot the precious rights and freedom of our people with the iron heel of oppression, and how he boastfully played the part of a tyrant and usurper during the dark days of reconstruction, then we say the people of North Carolina want no history from the polluted pen of WILLIAM W. HOLDEN, and we say WILLIAM W. HOLDEN, for he is unworthy the prefix of "Ex-Governor" before his name. With his name will ever be associated the blackest infamy and worst phase of corruption in high office, by the people of North Carolina, and any history he might write should be treated with that contempt our people entertain for his abuse of their confidence.

TRULY this is a great world, and we are living in an age of sixty miles a minute with no "breaks" on—ever pressing forward. Reading the New York *Star* the other day, we noticed that electricity has stepped in mercifully to alleviate the miseries of the early riser on dark winter mornings. An arrangement has been devised by which a connection is made between the room clock and the stove. The clock indicator is set over-night to any required hour, and when the hour hand reaches that time in the morning, an electric connection is established with the stove, which is then lighted by an electric spark. The sleeper, in the meantime, is not disturbed. As the temperature of the room rises, however, it is indicated by a small thermostat, and when it has reached a point of summer-like comfort an alarm is sounded. The sleeper, of course, is awakened, but the act of jumping out of bed has now no terrors for him, the morning ablutions are performed without a shudder, and the necessity for occasional lapses into profanity is checked. To appreciate, however, the wonders to be developed by electricity in the future, one should read "Looking Backward," by BELLAMY, in which he foretells the advantages the year 2,000 affords over the present, when we are to lie down at night, touch the electric button, and the room is inflated with the grandest music that ever "soothed the savage heart," and weary, care-worn and tired, we are lulled to sleep by the soft, sweet strains of the richest melodies, and awakened in the morning by the "sound of the gong at the hour indicated by the hand on the dial."

Arnold, of North Carolina, graduated at the Washington Lee University this year. ——Section hands on a New Jersey Railroad strike because a colored man is put on their section.

AN ADDRESS

To the Voters of North Carolina by the Democratic Executive Committee.

ROOMS OF STATE DEM. EX. COM.,
RALEIGH, N. C., June 16, 1890.

TO THE VOTERS OF NORTH CAROLINA:—At a meeting of the Democratic State Executive Committee, held in this city on the 10th instant, it was resolved that the Democratic State Convention be held in the city of Raleigh on Wednesday, the 20th of August, 1890.

It will devolve on this convention to nominate for vacancies now filled by appointment of the Governor a Chief Justice and one Associate Justice of the Supreme Court, and Judges of the Superior Court for the First, Fourth, Fifth and Eighth Districts. Also Judges of the Superior Court for the Second, Sixth, Seventh and Eleventh Districts, to succeed the present incumbents, whose terms expire; and to adopt a platform of principles, and for such other business as may properly come before it.

The convention is called to meet later than in 1888, to suit the convenience of the great mass of the Democratic voters, so that a fuller representation, reflecting a more general sentiment, may be insured; and it is desirable that the delegates shall attend.

The Democratic party congratulates the people of the State upon the material and moral advancement made under its beneficent administration of affairs, and, having redeemed its pledges in the past, presents its claims to them for a continuance of the confidence to which it is justly entitled, fully assured that they will be recognized, and the interests of all classes thus subserved.

The term for which Hon Zebulon B. Vance has been elected to the Senate of the United States will expire next March, and the legislature to be chosen this year will be called upon to fill it. It behooves us to see to it that no Republican is elected to the Senate from this State. The committee most earnestly requests a thorough organization in every township and county in the State. It is essential that this preliminary work shall be done at once, so that we may be ready for an active, energetic campaign as soon as the convention adjourns. It will not do to assume that our opponents, because they are inactive now, have no life. They can organize with celerity, and stand ready to take advantage of any apparent lethargy on our part; and, if we wish to prevent opposition, we must demonstrate, by our organization and strength, its futility. In 1882 overconfidence and apathy nearly resulted in the loss of the State, and again in 1886, from the same causes, the control of the House of Representatives of the State was lost to the Democrats and given to our opponents. Such a result must be carefully guarded against this year.

It is important that the various County Conventions be called at such times as will best suit the masses of the party, to the end that a full and free choice of candidates for the offices may be had and no discontent engendered.

The Republican party of to-day is the same as in the dark days of Reconstruction, and only awaits the opportunity to inflict upon our people the same disgrace and humiliation. Its action in the Federal Congress indicates too plainly that it is the party of Force, without respect for law or order.

The despotic usurpations of the petty tyrant who has been placed by them in the Speaker's Chair only to dishonor it; the deprivation of legally-elected Democrats of their seats in both branches of Congress and the seating of Republicans in their stead without the least vestige of right, for partisan purposes, and the effort to perpetuate themselves in power by the passing of the Federal Election Law by which the control of Congressional elections will be transferred from the State to the hands of irresponsible agents—appointed at the dictation of unscrupulous partisans at the National Capital, thus striking a serious blow to our cherished institutions and the rights of the Soverign States; the reckless appropriation of the public funds for illegal and unnecessary purposes, by which not only was the surplus left in the treasury at the end of Mr. Cleveland's benign administration entirely swept away and a large deficit created but also the opportunity of giving relief from the burdens of taxation is retarded: all admonish us that our only safety lies in a return to Democratic rule in the country and its continuance at home. Should they succeed in their aims we might expect Federal Supervisors backed by Federal bayonets at the polls, and a reenactment of the scenes of 1868 in our own and sister States.

Utterly indifferent to the interests of the Southern Farmer, all its legislation has been at our expense for the benefit of other sections, and the only hope of the agricultural South to throw off the legislative shackles that have crippled our prosperity and bound us to poverty is to move forward on the lines of those great principles of relief which the Democratic party has steadfastly advocated. To attain these ends the co-operation of all patriotic men who have at heart the prosperity of our agricultural and industrial interests and the material welfare of our southern people is earnestly asked, and they are urged to enroll themselves beneath the Democratic banner.

Let every Democrat realize the responsibility that rests upon him and meet it. There can be no doubt of the grand victory if we do our full duty. Unceasing vigilance is the price which we must pay for success, but when we consider what defeat means to us, the sacrifice is small. Overestimate, rather than under-estimate, the enemy, and go into the fight determined to win it. We must prove equal to the emergency, and when the first Tuesday in November shall have passed victory will be ours and white supremacy, which is synonymous with Democratic rule, will be assured to us for a further term.

By the committee.

ED. CHAMBERS SMITH,
Chairman.

B. C. BECKWITH,
Secretary.

Life in Ocean Abysses.

Dr. Regnard has raised the question, says the *British Medical Journal*, as to whether a corpse which sinks to a very great depth is preserved indefinitely or otherwise from putrefaction. According to his researches, published in the archives of the Biological Society of Paris, putrefaction does not take place in decomposable substances submitted to a pressure of 600 to 700 atmospheres. These figures correspond to a depth of 6,000 to 7,000 metres at sea. From these experiments it must not be concluded, according to Dr. Regnard, that there is a total absence putrefaction in the greater depths of the sea. There is no proof that bathybial or abysmal microorganisms do not exist, and if so, they could cause decomposition in the corpses of men as well as in the dead bodies of abysmal fishes. The question is of considerable medico-legal interest.

George Vanderbilt has bought four estates near Asheville for $162,500.

THE DISMAL SWAMP.

Its Adoption For a Pleasure Ground and Health Resort—Its Inhabitants, Location, and Surroundings, Lakes, Forests, &c.

The region of the Dismal Swamp, says J. Boyle O'Reilly in the Boston *Herald*, was intended by nature to be a pleasure ground, a health resort and a game preserve for the eastern side of the continent. In spite of all that has been done and left undone to destroy it, the swamp itself is probably the healthiest spot in America. Its delicious juniper water prevents malaria more effectively than the eucalyptus of Australia. The flying game of the continent centres in this region, and the lake in the winter is the best shooting ground in the country. Now that wealthy clubs and individuals are buying up the coast shooting, this incomparable natural preserve ought to be secured to the nation or the State.

Its original undoing was probably some accident or cataclysm of nature, changing a water-course or opening a crater-like spring or number of springs. But the remedy from the first was as easy and open to intelligence as the tapping of a vein to prevent plethora. The lake, it is probable, was the centre and the cause of the swamp, as is proved by the streams flowing out of instead of into it. Its overflowing waters when filled by rains or springs, finding no natural lip of the cup, cover the beach and threaten the densely wooded shore.

In this way has been brought about the singular conditions of the lake, which instead of being the lowest is the highest portion of the Dismal Swamp. It could be pierced and drained at any point and reduced to natural and brilliant proportions. Its overflow, instead of constantly deluging the surrounding land, could be guided in ten thousand sparkling channels to enrich and adorn its wonderful environment. The lake of the Dismal Swamp is, by survey, some twenty-three feet higher than the sea, and is not fifteen miles from tidewater, the intervening land being a level slope, and, except for the trees, exceedingly easy to channel. And, stranger still, the channels have been dug for over 100 yards, but they are locked up at the outer ends with wooden gates.

Ponder on this marvelous fact: The lake of the Dismal Swamp, three miles by two and a half in extent, and from seven to fifteen feet in depth, is situated on the side and almost on the top of a hill, and yet it creates by overflow all around it, for about one hundred square miles, one of the densest and darkest morasses on the face of the earth. In 1763 George Washington surveyed the Dismal Swamp, and discovered that the western side was much higher than the eastern, and that rivers ran out of the swamp and not into it. He then wrote that the swamp was "neither plain nor a hollow, but a hillside." A member of the National Geological Survey entered the Dismal Swamp, and proceeding westward came toward the lake and found that the rise in the lake was 5½ feet in seven miles.

We met this gentleman, Mr. Atkinson, within the bounds of the swamp, and on hearing this statement asked him: "Could the lake be lowered and the swamp drained with such an incline?" "Certainly" he said. "It is a very decided water-shed. An opening from the lake to the tide, on the Elizabeth river on the one side and the Pasquotank on the other, would have a fall of 22 6-10 feet in a distance of less than fifteen miles."

Uses For Old Paper.

Most housekeepers know how invaluable newspapers are for packing away the winter clothing, the printing ink acting as a defiance to the stoutest moth, some housewives think, as successfully as camphor or tar paper. For this reason newspapers are invaluable under the carpet, laid over the regular carpet paper. The most valuable quality of newspapers in the kitchen, however, is their ability to keep out the air. It is well-known that ice, completely enveloped in newspapers so that all air is shut out, will keep a longer time than under other conditions; and that a pitcher of ice water laid in a newspaper, with the ends of the paper twisted together to exclude the air, will remain all right in any summer room with scarcely any perceptible melting of the ice. These facts should be utilized oftener than they are in the care of the sick at night. In freezing ice cream, when the ice is scarce, pack the freezer only three-quarters full of ice and salt, and finish with newspapers, and the difference in the time of freezing and quality of the cream is not perceptible from the result where the freezer is packed full of ice. After removing the dasher it is better to cork up the cream and cover it tightly with a packing of newspapers than to use more ice. The newspapers retain the cold already in the ice better than a packing of cracked ice and salt, which must have crevices to admit air.

Keep Still.

In one of Dr. Burton's Yale lectures the following advice was given to the young ministers: "When trouble is brewing, keep still. When slander is getting on its legs, keep still. When your feelings are hurt, keep still, till you recover your excitement, at any rate. Things look differently through an unagitated eye. In a commotion once I wrote a letter and sent it, and wished I had not. In my later years I had another commotion, and wrote a long letter; but life had rubbed a little sense into me, and I kept that letter in my pocket against the day when I could look it over without agitation and without tears. I was glad I did. Silence is the most massive thing conceivable sometimes. It is strength in its very grandeur. It is like a regiment ordered to stand still in the mid-fury of battle. To plunge in were as easy. This has unsettled more ministers than small salaries ever did, or lack of ability."

☞ A debt-paying faith is what a great many professed christians need. The following is to this point: "A quaint writer tells of a very good prayer which was once offered. A brother was praying with much noise for faith—'soul-saving faith, sin-killing faith, devil-driving faith.' There was a quiet friend near him, to whom the noisy brother owed a large bill. 'Amen,' said the friend; 'amen, and give us debt-paying faith, too.' We need that faith nowadays. People do not believe in religion that does not do that."

☞ He who backbites an absent friend, when another censures him, who affects to raise loud laughs in company, has the reputation of a funny fellow, who can feign things he never saw, who cannot keep secrets, is a dangerous man. Against him, Roman, be on your guard.—*Horace.*

☞ The coldest region in the United States is the stretch of country on the northern border of the Minnesota lakes to the western line of Dakota. At Pembina, the lowest temperature reached was 56 below zero, and this was reached in the winter of 1873.

What Choir Singers are Paid.

E. Aline Osgood, in Ladies' Home Journal.]

A soprano, in an average city, will be paid, as a beginner, anywhere from $200 to $300 per annum. As she becomes better known, and is in more thorough command of her voice, she will average from $500 to $800. Boston pays about $100 per annum better to choir singers than any other city in my knowledge. Several sopranos there receive yearly salaries of $1,000 and $1,200, and a few $1,500.

A woman with a good contralto voice will begin at an annual salary of $200 which, if she is successful, may rise to an average of $300. There are two churches in Philadelphia, I believe, which pay their contraltos $400; but this, in cities outside of Boston, which, as with sopranos, averages about $100 higher, is unusual. And even a genuine alto—that rarest of things in these days—will command but from $300 to $400 per annum. The "Hub," of course, does better than this, by adding $100; but even with this addition none of these salaries appear precisely extravagant, or to admit of much luxury in living, and salaries are rarely increased. Should a rival church make an offer for a voice, if the first church is desirous of retaining it the rival's price is overbid, and the voice retained.

But this is the only reason, of which I have knowledge, for increasing salaries. However, it must be remembered that this salary is paid for singing only at two services, and for attendance at one or two rehearsals a week. All the rest of the singer's time is her own to dispose of as she pleases. If she proves an apt pupil of her new master, he will send to her, for instruction, scholars whom he has not the time to teach. Or she may secure engagements to sing at different church concerts, or, laying aside her music, may take to sewing, painting, decorating or any of the many ways in which girls are apt to make a living. No work must be undertaken which will in any way conflict with the choir singing, for this, remember, is the reason of her existence. She is first and before all else a singer; that is her profession. Let this never be forgotten.

Cotton-Seed Hulls.

Baltimore Manufacturers' Record.]

The study of economics in connection with the cotton plant is marvelously fruitful. We have frequently had occasion to refer in these columns to new discoveries in connection with this plant until it seemed as though the end must have been reached. Among these other discoveries, we have mentioned the attempts of a Texas man to make pulp for paper-making and like work out of the fibrous parts of the hull. These researches seem to have proved, beyond question, that pulp of fine quality can be made in this way—not only pulp that can be used in making the coarser grades of paper but for making "linen" paper just as the oil of the cotton seed makes "olive oil." The fibrous part of the hull is used for pulp-making, while the residue is pressed into cakes to be used as food for cattle or to manufacture into fertilizer. Paper has already been made of this pulp by this Texas experimenter, and it is understood that a large factory is to be built at Houston or elsewhere to manufacture it on an extensive scale.

Another experimenter—this one in Georgia—has been working on the same line and has gone more into detail than the Texas man. The Georgian has perfected a process which produces excellent pulp from the fibrous part of the cotton-seed hull; but, instead of pressing the residue into cakes, he makes it into liquid fertilizer. It takes the earth a long time to digest the ingredients of the cake, but by liquifying these ingredients the plants can absorb them readily. Not only is this liquid fertilizer very cheap but it is claimed that the chemicals used in reducing the residue of the hulls to liquid form does not in any way injure vegetation, but is sure death to bugs, worms and their eggs.

Surely the cotton plant is like the South—a marvel of resources.

Appearance of a Woman's Foot.

Ladies' Home Journal.]

On the principle that "all's well that ends well" the appearance of a woman's foot is of supreme importance. Treat your shoes tenderly. Have one pair sacred to rainy weather, for rubbers ruin fine leather. Avoid varnish and blacking of all kinds, and substitute vaseline. First, rub your shoes with a piece of old black silk, then apply the vaseline with a soft black kid glove. If you insist on your dressmaker facing your gowns with velvet or velveteen instead of braid, you will lessen your shoemaker's bill, and be saved from the purple blemish on the instep caused by the movements of the skirts in walking. When the buttons come off don't hunt up old shoes and use the shabby buttons, but invest five cents in a card of shining black beauties, and have them ready for emergencies. One old button spoils the style of a shoe. Gaiters are charitable things and cover a multitude of defects. Half-worn boots will last a long time under kindly protection. Now is a good time to buy them, and in most shops you can get a pair for one dollar and sixty-five cents. To save your evening shoes and slippers invest in a pair of white fleece-lined arctic boots, which will cost two dollars, but save ten times that amount in carriage hire and medicine, not to mention the shoes themselves. After removing your shoes put them in correct position by pulling up the uppers and lapping the flap over and fastening one or two buttons. Then pinch the instep down to the toe, bringing the fullness up instead of allowing it to sag down into the slovenly breadth of half-worn foot gear. A boot that is kicked off and left to lie where it falls, or is thrown into the closet, will lose shape and gloss.

Royal Arch Masons.

The Grand Chapter of Royal Arch Masons met in Asheville. The following officers were chosen for the ensuing year: B. F. Briggs, of Wilson, G. H. P.; H. C. Fagg, of Asheville, D. G. H. P.; D. P. Mast, of Winston, G. H. K.; A. J. Howell, of Wilmington, G. S.; Wm. Simpson, of Raleigh, G. T.; D. W. Bain, of Raleigh, G. Secretary; Geo. H. Bell, of Asheville, G. C.; E. P. Powers, of Fayetteville, Grand Captain of the Hosts. A banquet was given the Chapter.

A Bad Lamp.

Mistress, (to servant, who is about to throw away an old lamp)—What is the matter with that lamp, Bridget? Does it smoke?

Bridget—I don't know nothin' 'bout whither it smokes or drinks; but it goes out noights, mum!

An M. D.'s Blunder.

He proposed to his love in a letter—
She was silent as one who is dead;
He fretted and fumed—then discovered
He'd sent her a prescription instead!

To Summer.

Oh, summer, you're a lovely time,
Your faults are very few,
The greatest—and it is no crime—
Is that you've flies on you.

ONE ENJOYS

Both the method and results when Syrup of Figs is taken; it is pleasant and refreshing to the taste, and acts gently yet promptly on the Kidneys, Liver and Bowels, cleanses the system effectually, dispels colds, headaches and fevers and cures habitual constipation. Syrup of Figs is the only remedy of its kind ever produced, pleasing to the taste and acceptable to the stomach, prompt in its action and truly beneficial in its effects, prepared only from the most healthy and agreeable substances, its many excellent qualities commend it to all and have made it the most popular remedy known.

Syrup of Figs is for sale in 50c and $1 bottles by all leading druggists. Any reliable druggist who may not have it on hand will procure it promptly for any one who wishes to try it. Do not accept any substitute.

REMERKABLE DEVELOPMENT.

A recent stay of a few days in the extreme north-western part of the State—where the Cape Fear & Yadkin Valley Railway is rapidly filling up the little gap between its line and the Norfolk & Western R. R.—afforded us some opportunity of acquainting ourselves with the extraordinary material development of that country. The impress of thrift is on all the domestic life of that people, in the rapid growth of their towns and villages, the tasteful character of their residences and the solid comfort of their farm dwellings, while the spirit of progress has taken hold of every business enterprise and manufacturing industry which demands capital and employs labor.

The *entrepot* of a varied and lucrative trade from a rich portion of south-west Virginia and the fertile country locked in the amphitheatre of the Blue Ridge and Suaratown ranges, Mt. Airy is enjoying a steady growth almost unadvertised and entirely independent of speculative ventures—the most moderate estimate of its present population being 2,000. The constant shipment of vast supplies of food and farm products and the satisfaction of the demands and needs of a prosperous and constantly increasing population occupy the strictly mercantile energies of its people, while the tobacco and cigar factories, the wood-works, cotton and woolen mills, etc., amplify and utilize all its resources as a market, give remunerative employment to skilled artisans, and put in circulation thousands of dollars in ready money every week.

The attractions of this part of the State as a summer resort are manifold, and its advantages are peculiar to the location. Hotel accommodations are excellent and the prices remarkably reasonable. Where the writer was housed (the Mt. Airy Hotel, Messrs. Moore proprietors, with Mr. Wm. Foy the very pleasant manager) the table was bountiful and well-served, fresh butter and milk supplied *galore*, with all the luxuries of a profuse board, and the rooms perfectly ventilated and scrupulously clean. It is impossible to describe the exhilarating effect of the waters of White Sulphur Springs, which must be reached by carriage, but are within convenient distance, and where there are also very pleasant accommodations for the visitor. The livery service of the place is excellent, and fine driving and riding stock is a matter of course. This point is within a day's journey of almost any part of middle and eastern North Carolina by rail.

The charming variety, exquisite bits of still life everywhere, the picturesqueness and the occasional dazzling splendor and grandeur of the mountain scenery, upon which one is ushered by a trip along Fancy Gap to Mitchell's, Elk Knob and on to Hillsville, Va., would call in requisition powers of description content with nothing less than column after column of newspaper matter. The summer tourist should never permit himself to get within view of the Blue Ridge without having satisfied his soul with the incomparable pictures flashing upon him from its summit. But we must defer a further elaboration of this matter, with some facts as to the cotton and woolen mills in and about Mt. Airy to a subsequent issue.

The perfection of railroad riding we enjoyed last Saturday morning, whirling along the Ararat river, seated in the engine cab with Capt: David Jones, and skirting the Pilot (his hoary head still wrapped in cloud) and the spurs of the Suaratown, while he courteously gave us points of interest as we rushed through the fresh morning air.

A GREAT WORK FOR THE TAX-PAYERS.

Not long since we had occasion to call attention to the salutary results which had already accrued from the work of the Legislative Committee on Railway Taxation, and certainly subsequent developments have by no means impaired the value of that work.

From the Raleigh & Gaston Railroad the sum of $15,000 has been secured to the State—no small easement to the burdens of individual tax-payers—and the acceptance of the proposition of the Wilmington & Weldon R. R. will render available a far larger amount. Already the track of the Atlantic Coast Line extends through this county for a distance of 20 miles, which, at $4,000 per mile as a branch road, will give Cumberland an additional $80,000 worth of taxable property; and, when the extension south is completed—a distance of about 15 miles within the county—there will be a total of 35 miles, which, at $4,000 per mile, will render available taxable property of the value of $140,000.

Mr. Thos. H. Sutton, a member of this Legislative Committee, and certainly one of its ablest and most energetic members, has been laboring very zealously for the accomplishment of this important work, having foreseen the great benefits to be derived from its successful consummation; and he may now feel that, with his colleagues, he has performed a service for his fellow-citizens which it would be difficult to overestimate.

TO DISPEL COLDS,

Headaches and Fevers, to cleanse the system effectually yet gently, when costive or bilious, or when the blood is impure or sluggish, to permanently cure habitual constipation, to awaken the kidneys and liver to a healthy activity, without irritating or weakening them, use Syrup of Figs.

Is Consumption Incurable?

Read the following: Mr. C. H. Morris, Newark, Ark., says: "Was down with abscess of lungs, and friends and physicians pronounced me an Incurable Consumptive. Began taking Dr. King's New Discovery for Consumption, am now on my third bottle, and able to oversee the work on my farm. It is the finest medicine ever made.

Jesse Middlewart, Decatur, Ohio, says: "Had it not been for Dr. King's New Discovery for Consumption I would have died of Lung Troubles. Was given up by doctors. Am now in best of health." Try it. Sample bottles free at B. E. Sedberry & Son's Drug Store.

Electric Bitters.

This remedy is becoming so well-known and so popular as to need no special mention. All who have used Electric Bitters sing the same song of praise.—A purer medicine does not exist, and it is guaranteed to do all that is claimed. Electric Bitters will cure all diseases of the Liver and Kidneys, will remove Pimples, Boils, Salt Rheum and other affections caused by impure blood.—Will drive Malaria from the system, and prevent as well as cure all Malarial fevers.—For cure of Headache, Constipation and Indigestion try Electric Bitters.—Entire satisfaction guaranteed or money refunded.—Price 50 cts. and $1.00 per bottle, at B. E. Sedberry & Son's Drug Store.

Bucklen's Arnica Salve.

The Best Salve in the world for Cuts, Bruises, Sores, Ulcers, Salt Rheum, Fever Sores, Tetter, Chapped Hands, Chilblains, Corns, and all Skin Eruptions, and positively cures Piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box.

North Carolina, Cumberland County, } SUPERIOR COURT.

SPECIAL PROCEEDING.

W. B. Ray and others ex. John Colvin, James Colvin, William Colvin and Mrs. —— Pitts.

IN the special proceeding above referred to it appearing, by affidavit to the satisfaction of the Court, that the defendants cannot after due diligence be found within this State, and that they are proper parties to said proceeding, it being an action for the sale and partition of real estate situated in this County, it is ordered that publication be made once a week for six weeks in THE FAYETTEVILLE OBSERVER, a newspaper published at Fayetteville, N. C., requiring the said John Colvin, James Colvin, Wm. Colvin and Mrs. —— Pitts to appear and answer or demur to the petition of plaintiffs herein, at the office of the Clerk of the Superior Court of said County on the 28th day of July, 1890.

Let this order be published accordingly.

CHAS. G. CAIN, Clerk
of Cumberland Superior Court.
June 19, 1890. 6w

Administrator's Sale of Land.

By virtue of the power contained in an order of sale made by C. G. Cain, Esq., Clerk of the Superior Court of Cumberland County, in a certain matter pending in the Superior Court, wherein Jas. R. Carter, administrator, is plaintiff, and I. J. Carter and others heirs-at-law of John C. Graddy, dec'd, are defendants, the undersigned will on the 21st day of July, 1890, at the Market House in the Town of Fayetteville, at 12 o'clock M., expose to public sale all that tract of land lately owned and occupied by John C. Graddy, situated 4 miles south of Fayetteville, on the C. F. & Y. V. R. R. containing about 75 acres. Said sale is made for the purpose of raising assets for payment of debts of the said John C. Graddy.

Terms of sale: One-third cash, balance 3 and 6 months. Title reserved till purchase money is fully paid. JAS. R. CARTER,
Adm'r of John C. Graddy.
JOHN G. SHAW, Att'y.
Fayetteville, N. C., June 17, 1890. ts

The Water of Life,

From Mount Vernon Springs, Chatham County, N. C.

LOCATION.

It is located in a beautiful little village, one mile from Ore Hill Station on the C. F. & Y. V. R. R., 40 miles south of Greensboro. The location is free from all malarial influences.

DESCRIPTION.

Here one finds mineral water of fine quality in a spring five feet deep. It is pleasant to the taste, cool and light as air itself. Marvellous cures in dyspepsia have been effected by the use of the water, and cutaneous diseases which have baffled medical skill have yielded to it. The water is not surpassed by any mineral water in the State.

It acts powerfully upon the kidneys, causes the urine to flow freely, and corrects entirely that extreme acidity of the urine which is often so painful; it also acts gently upon the bowels; it being especially good to aid digestion, stimulates the appetite, corrects the acidity of the stomach, and builds up the system.

It bubbles up through a crevice in a rock; wet or dry weather it never increases or diminishes in flow.

MT. VERNON SPRINGS HOTEL,
J. M. Foust, Owner and Proprietor, Mount Vernon Springs, N. C.

One mile from Ore Hill. Comfortable Rooms. Fare Good. Conveyance meet trains.

Terms: $1.50 to $2.00 per day; $7.00 per week; $20.00 to $25.00 per month of four weeks. Special rates to families. Correspondence solicited, and any information gladly given.

This place is second to none as a Summer Resort for those who like a quiet, home-like place. A charming spot to those who seek a place of rest and recreation.

The house is large and comfortable, with 500 feet of piazza running the entire length of the three buildings. The addition of 10 rooms at the west end gives 40 rooms. The rooms are large enough and well ventilated. From the piazza one overlooks the springs and scans the fine prospect beyond.

Around the premises is a dense oak forest through which comes a bracing breeze.

For the amusement of the guests there is a good ten pin alley and ball room. Beautiful shady walks and drives in every direction.

It may be truthfully said nature has done a wonderful part here.

No mosquitoes nor gnats. No stagnant water any where near. The drainage is perfect.

Dr. J. C. Kirkman, Attending Physician.
June 19, 1890. 2m

NEW ADVERTISEMENTS.

Is Money Scarce?

We are led to doubt the oft-repeated assertion that "money is scarce in this section," when we remember our experience in past spring seasons and realize that we are doing a fine business this spring. Trade is really good with us, and we wish our friends to continue to help us "keep the ball in motion." Our stock was never so attractive before, nor were prices as low on

Fine Clothing

as are our figures for the present season. The every-day expressions of pleased customers attest the fact that such pretty and

STYLISH CLOTHING

as we show excels any stock heretofore brought to Fayetteville. Those who have not seen our goods should at once avail themselves of the opportunity, and if you will favor us with an early call we promise that you shall not be disappointed.

"Attention, Ladies of Cumberland Co."

DR. MCGILL'S Orange Blossom cures and is worth its weight in gold to any suffering girl or woman. By addressing Mrs. B. F. Miller, Defiance, N. C. and enclosing a 2 cent stamp, ladies of Cumberland County will receive free of charge, a sample box of this valuable remedy, Dr. McGill's plain talk to the ladies, and full particulars, as over ten thousand ladies in North Caroiina alone have tested the merits of this wonderful cure, and many of them have requested that their names be given for reference. Those who wish to enquire can easily be convinced that whatever the failures of the past have been, we have in Orange Blossom a permanent and entirely safe cure for the stubborn forms of female weakness which have so baffled the skill of our best physicians, and held the mothers and daughters of our land prisoners in their iron grasp.

A lady agent wanted for each township in the county. Address MRS. B. F. MILLER,
Defiance, Randolph Co., N. C.

they can supply you with a

FULL SET OF BOOKS,
LEDGERS,
DAY-BOOKS,
JOURNALS,
CASH BOOKS,

☞ Ruling the paper to any desired pattern,

PERFORATING,
NUMBERING, &c.

OLD BOOKS REBOUND at reasonable prices in paper, morocco, cloth or sheep.

In this connection they desire to state that their BINDERY is complete, and that they guarantee work and prices, and enter into competition with manufacturers North and South.

Court House Work a Specialty.

Records of Deeds, Records of Mortgages, Records of Wills, Criminal Dockets, Summons Dockets, Civil Issue Dockets and all other Dockets or Records that may be desired made to any size of very best Scotch Linen Papers.

It is their intention to keep on hand all blanks for Clerks of Superior Courts and Magistrates, which they will offer at reasonable prices, taking into consideration quality of paper, etc.

Land Deeds, Land and Chattel Mortgages always on hand.

They call special attention to the fact that they are prepared to make books of any kinds or sizes and to furnish the most durable and popular styles of Binding.

The extent of their establishment is only to be measured by the demand, and they solicit work from every source, guaranteeing satisfaction in every case.

Their terms are cash on delivery in all cases. The low schedule of prices adopted justifies them in this exaction.

STANDARD TEST FOR EYESIGHT.

These Test Types for determining the Acuteness of Vision were selected by
GEORGE COWELL, F.R.C.S.,
Surgeon to the Westminster and Royal Westminster Ophthalmic Hospitals, etc., etc.

Persons desiring to know whether THEY SHOULD OR SHOULD NOT wear glasses, or whether their glasses suit their eyes, CAN FIND OUT FOR THEMSELVES by a careful use of the following tests.

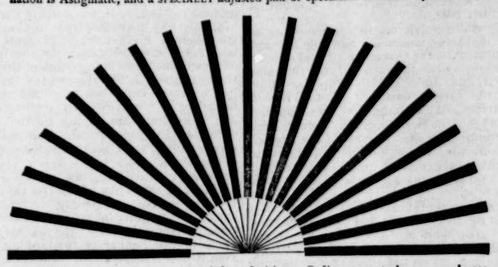
STANDARD TEST FOR FAR SIGHT.

Spell the following letters when placed in a good light, and at a distance of 16 feet from the eye, each eye to be tried separately:

S n u o a v r e

STANDARD TEST FOR ASTIGMATISM.

At a distance of 12 to 16 feet, ALL the lines of the fan should appear equally black. If some are more vividly black than others, or if some are rather hazy, the eye under examination is Astigmatic, and a SPECIALLY adjusted pair of spectacles is absolutely necessary.



Astigmatism is a very common defect of vision. Ordinary spectacles or eyeglasses, bought in a haphazard way (without undergoing a thorough examination), are *worse than useless*, and tend only to aggravate the defect. By our method of testing, the slightest defect of vision is at once detected, and by specially prepared glasses the most difficult cases are successfully treated. When headache and neuralgia proceed (as it often does) from a latent defect of vision, our method of testing will at once discover it, and by properly adjusted and specially prepared glasses will give immediate relief.

The cut below shows how the fan appears to an eye Astigmatic to *Vertical Lines.*

STANDARD TEST FOR NEAR SIGHT.
(Not applicable to persons under 20 years of age.)

Read the following paragraph when placed in a good light, at a distance of 12 inches from the eye, each eye to be tried separately:

The eye is one of the most delicate and wonderful organs of the human system. Great care should be taken not only to preserve the sight, but to endeavor to regain what has been already lost by overwork, improper glasses, &c., &c. The only way to accomplish this is to wear suitable glasses, properly fitted to the eyes. In every case where the glasses are not correctly fitted, the eyes are more or less injured. We make a special study of Eyesight Testing in all its branches, and can assure a perfect correction wherever a defect of vision exists.

My office is now on Market Square, next to A. J. Cook & Co.'s Drug Store. Will be in Fayetteville for a few days. Come and have your eyes examined and glasses fitted. I guarantee a fit of glasses or no pay. I use only the finest lenses made by American and Parisian Lens grinders. Examination free.

HEADQUARTERS
—OF THE—
∴National Garment Cutter Company.∴

I take this opportunity of informing the readers of THE OBSERVER and public generally that the headquarters of the National Garment Cutter Company in Fayetteville, for the present, will be in the building formerly occupied by Mr. Garrett's Job Printing Office (up stairs) on Hay street. Lessons will be given in the tailor's rules and measurements reduced, simplified and made so plain that any one can cut coats, dresses, pants, children's clothing, and in fact anything worn by men, women and children. To cut, fit and make garments of every description that will conform to the prevailing fashion and fit perfectly is a most desirable attainment, and yet this is just what we guarantee.

Notice of Sale.

BY virtue and in pursuance of a decree of the Superior Court of Cumberland County, made at May Term, 1890 thereof, in the case of A. H. Slocomb against Harrison Williams and wife Annie, which said decree is on file as a record in the Clerk's office of said Court, the undersigned, Commissioner appointed for that purpose, will, on Saturday, the 5th day of July, 1890, at the hour of 12 M., at the Market House in Fayetteville, N. C., offer at public sale the following real estate: First tract situated in the town of Fayetteville, N. C., on the west side of Hillsboro street, beginning at a stone, Brown's corner, on the west side of Hillsboro street, running thence N. 88 West 122 6-12 to George McNeill's line, thence as it S. 20 E. 54, thence S. 88 East to a stone 138 feet on Hillsboro street, thence as said street N. 2 East to the beginning.

Second Tract beginning at the S. E. corner of the James lot (or the lot on which said Harrison Williams now resides) and west side of Hillsboro street in said town of Fayetteville, N. C., and runs thence N. 88 W. 138 feet with line to her S. W. corner on McNeill's line, thence with McNeill's line S. 20 W. 74 feet, thence S. 88½ 157½ feet to Hillsboro street, thence with said street N. 2 E. 70 feet to the beginning, being the southern part of the lot formerly owned by Joshua Carmon, Jr.

Terms of sale: Cash.

TOWN AND COUNTY.

Good for Harnett!

News has been received that a large majority of the Harnett county delegates will be for Green at the Congressional Convention next month.

Correction.

We have been informed by Mr. Cotton that our reporter was in error in the notice of the 4th of July exercises at Hope Mills. The day will be properly and pleasantly celebrated, but there will be no fireworks at night.

One of the Best.

The advertisement of Greensboro Female College appears in another column. Commendation of this excellent institution is almost supererogatory; for, in thoroughness of instruction and judicious training, thoughtful parents have long recognized it as one of the best schools in the South.

The Census.

So much complaint has reached this office about the census enumerators that we have resolved to ask everybody in this community who has been overlooked to report same to this office, with a view to having, as far as possible, a complete eport.

Railroad Meeting.

Notice is given in another column of a special meeting of the Board of Directors of the Fayetteville & Albemarle Railroad Company in this city on Wednesday, July 2nd, at 12 o'clock M. A full attendance is desired.

Business Still Brisk.

Of the total amount of naval stores carried to Wilmington on the 20th inst. *via* all the railroads and steamboats, the Cape Fear and Yadkin Valley Railway transported 44 per cent. of the spirits of turpentine, 21 per cent. of the rosin and 67 per cent. of the tar.

Help for the Palmetto State.

The managers of the brown-stone quarry near Sanford have been awarded the contract for furnishing their material in the construction of the public building at Greenville, S. C. Bids were made from Northern and Western States, but the Sanford company bore off the palm.

First of the Season.

Mr. Geo. Nixon, cultivating crops this year on the Lawrence place two or three miles from town, brought to our office a ripe watermelon last Saturday, 21st inst., stating at the same time that he had picked a ripe one on the 18th inst. This is early—at least 6 or 8 days ahead of the average time of ripening melons in this section.

One That You Read About.

Last Tuesday there was placed on the records over at the court-house a mortgage which sends Cumberland up to the "head of the class." It is made by the Cape Fear & Yadkin Valley Railway Company in favor of the Mercantile Trust and Deposit Company of Baltimore, Md., to secure the sum of $6,250,000.00, invested in consolidated bonds of the road, whose securities are now first-class in all the great money markets of the country.

Long and Short Division.

In a late issue of the Wilmington *Star* the statement was made that the Bladen Congressional delegates, appointed at the recent convention of that county, are "divided" in their choice—true, literally, but it is a division which is very pleasant to a great many of us.

We have seen a letter from one of the delegates appointed by that convention, in which he estimates—after a careful canvass of those selected to represent Bladen at Clinton on the 23rd prox.—that 12 of the 14 townships are for Hon. Wharton J. Green.

Killed on the Rail.

When the through freight on the Cape Fear & Yadkin Valley Railway arrived at Fayetteville just before dawn on Tuesday morning James Reid, a colored brakeman, was missed, having been last seen at Manchester. An engine was run back, and his body was found about two miles this side of Manchester, the head completely severed from the body. He is supposed to have fallen asleep, and lost his balance. Dr. J. W. McNeill, County Coroner, made careful inquiry among the train hands as to the probable cause of the fatality; and, convinced that accidental death was patent, dispensed with an inquest with characteristic good judgment.

Attention, Please.

WALTER WATSON—Prospectus of the Fayetteville Graded School.

A Trophy from Over the Line.

Miss Laura M. Kyle, daughter of Capt. W. E. Kyle, returned home a few days ago from the Brevoort School at Brooklyn, N. Y., bearing with her across Mason & Dixon's line a prize from the very camp of the enemy—a beautiful gold medal for the highest average, her figures being 96½ against the next best competitor's 95.

Miss Kyle promised that, with a fair opportunity, she would "down" those Yankee girls (who are sharp as steel-traps and as bright as new pins), and she has well redeemed her pledge. The Brevoort School stands high in the efficiency of its system and the thoroughness of its course of study, and Miss Kyle's prize is a gratifying testimonial of her own capacity as well as of the admirable training of Miss Alice Mallett and the teachers of the Fayetteville Graded School.

Knights of Pythias.

The annual convention of the Grand Lodge of the Knights of Pythias, held at Durham last week, was largely attended, and marked by proceedings of great interest. The order was shown to be in a remarkably prosperous condition, and the people of Durham treated the delegates in the princely style characteristic of that city. Asheville is to be the next place of meeting. A citizen of Fayetteville, high in the councils of the organization, was elected Grand Chancellor, and following is the full list of officers:

G. C.—W. S. Cook.
G. V. C.—F. L. Jacobs.
G. P. J.—W. B. Parker.
G. K of R. and S.—J. L. Dudley.
G. M. of E.—J. Ward.
G. M. at A.—G. M. Whitfield.
G. I.—J. H. Southgate.
G. O. G.—G. C. Holder.

"One of the Finest Orators of the Cape Fear Section."

The Bennettsville *Pee Dee Alliance* of the 19th inst. has a report of the closing exercises of the Graded School, from which we extract the following:

Rev. W. B. Corbett then introduced Hon. George M. Rose, of Fayetteville, who for one hour handled his educational subject with ability. Indeed it was a scholarly and classical production; it evinced care and thoughtful preparation; his delivery was clear and distinct. Mr. Rose fully maintained his reputation as one of the finest orators in the Cape Fear section.

Prof. R. C Root then presented the beautiful parchment diplomas to the three young ladies who had graduated. The entire exercises were interspersed with excellent music, furnished by Miss Janie Dudley and Mr. J. T. Dudley of our town, and Messrs. Wemyss and Sheetz from Fayetteville. The entire exercises have been pronounced by all as the best and most entertaining of any ever held in Bennettsville.

Notes from Duplin.

Our correspondent at Kenansville gives us the following interesting notes of county matters in Duplin during the current month:

J. B. Oliver, Esq., was made chairman of the board of magistrates in place of T. S. Watson, deceased.

F. M. Keathly, W. H. Winder and S. B. Newton were elected county commissioners, the first being reelected.

The constitutional limit of taxes was levied:—$2.00 on the poll and on the $100.00 of property. Under Schedule B the same amount was levied as is levied by the State. The commissioners were directed to use their best efforts to get the railroads that run through the county taxed.

The contract was ratified with the Van Dorn Iron Works of Cleveland, Ohio, to furnish the steel cells, corridors, locks, etc., for the new jail at $1,559.50.

Prof. W. M. Shaw was elected County Superintendent of Public Instruction.

Don't Neglect the Important Duty.

It is to be hoped that the primaries to be held throughout Cumberland county to-day, in accordance with the notice published by Mr. H. L. Cook, chairman of the Democratic County Executive Committee, will thoroughly represent the Democratic party by the large attendance, the general participation in their proceedings, the full and free expression of popular sentiment, and the proper manifestation of interest. Should these be the characteristics of the primary meetings, the County Convention in the Town Hall on the 28th inst. will worthily set forth the wishes and embody the will of the Cumberland Democracy—in its turn sending such men to its own nominating convention, to Clinton, Laurinburg and Raleigh as will aid in investing the best men with the trusts and responsibilities of office.

Especially do we call for a large meeting to-night. Without arrogating to Cross Creek any special importance, it is the largest and most populous township in the county, and upon its judicious action depends much of the success of every political campaign.

As Others See Us.

Mr. Henry Blount, the versatile and euphemistic editor of the Wilson *Mirror*, was delightedly greeted by his many Fayetteville admirers on the occasion of his recent visit to this city, and we are glad to know from the following extracts from the last issue of the *Mirror* that our folks were successful in making his time pass pleasantly:

During a very pleasant and delightful stay in Fayetteville last week we had the pleasure of visiting the beautiful and admirably arranged depot building of the successfully managed C. F. & Y. V. R. R., and we were indeed most favorably impressed with what we saw. The General Passenger Agent, W. E. Kyle, a most perfect type of a perfect gentleman, and certainly one of the cleverest men we ever knew; the Auditor, Mr. Bidgood, a most elegant and courteous gentleman; and Mr. Williams, the efficient and most affable Treasurer, who is indeed most genial and delightful—all contributed very much to our enjoyment, and made our visit there a scene of pleasure and delight. No wonder that that fine corporation is having such a high degree of popularity and prosperity, for it is under the control of as clever and as agreeable a set of gentlemen as we have ever seen.

We are glad to have Mr. Blount confirm as follows our own opinion of one of our esteemed citizens, who, we have always said, is one of the most pulchritudinous men we ever saw:

Handsome, gallant, gentlemanly Ed Lilly was particularly clever and agreeable to us during our recent visit to Fayetteville, and his delightful courtesy has made a fragrant oasis in our life, and to which green spot memory will often go back with pleasure and delight.

Death of Mrs. A. W. Steele.

Our Fayetteville readers will receive with sorrow the announcement of the death of Mrs. A. W. Steele, which occurred at the residence of her daughter, Mrs. Dewey, in Goldsboro, at 3:20 o'clock yesterday afternoon. Her remains will be brought to this city, and the funeral services will take place from the Hay Street Methodist Church immediately after the arrival of the train on the Wilson Short-Cut R. R. this evening.

Assessors.

Representatives of the different counties through which the Cape Fear & Yadkin Valley Railway passes have been here this week to assess the property of the road.

Capt. A. B. Williams was made chairman of the board, and Mr. D. Rose secretary. The road-bed was assessed at $3,500 per mile, against $2,700 last year; the personal property at $215,000, against $120,000 last year; there are 345.7 miles of road, against 249.8 last year. The amount of taxation is divided by law proportionally among the counties through which the road runs.

Rev. Dr. Pritchard's Lecture.

The gifts of the student and scholar are never more conspicuous than when exerted for the entertainment of others, and the audience assembled in the 1st Baptist Church on Tuesday evening were for more than an hour in the enjoyment of all the pleasure which can be bestowed by a powerful intellect and a richly-stored mind in the graphic presentation of a charming subject.

The lecture of Rev. Dr. Pritchard, of Wilmington, was a master-piece of reminiscence, narrative and description; a vivid portraiture of the best of storied Italy, in the historic scenes which have oft fired the genius of the poet, painter, sculptor and historian.

Mr. Thos. H. Sutton introduced the lecturer briefly, but with inimitable grace, ease and correct taste.

The Big Wilmington Excursion.

The splendid opportunities now offered by the summer rates on the Cape Fear and Yadkin Valley Railway or the special excursion trains run for a day's picnicing are eagerly embraced by those who pine for a dip in the surf at one end of the line or a mountain climb at the other.

The invasion of Wilmington and the irruption upon the coast last week by the Fayetteville Presbyterians was tumultuous and highly enjoyable, and, in point of numbers, broke the Methodist record of the week before. Ten coaches pulled out from the depot on Thursday morning, 19th inst., so completely filled—reserved cars and all—that many were left on the platform, and all along the line crowds were in waiting at the different stations whom the managers of the train were unable to take on from lack of accommodation. The run was made through to the coast without change of cars (those remaining in Wilmington who wished to do so), and large numbers of the citizens of the latter city joined with the Fayetteville excursionists in the trip to the Sound, where the day was passed pleasantly in surf-bathing, fishing, rides on the "switch-back," etc.

The Fayetteville depot was not reached until about 1 o'clock at night, making the folks at home somewhat anxious, but there was no accident to report on its arrival. The number of excursionists was estimated at from 850 to 900.

They Can't Understand It.

The writer has within the past ten or fifteen days passed some time in other parts of the State, and everywhere he has been met by men in all the walks and professions of life with the question: "What do the people of your Judicial District mean by a movement which may take MacRae off the bench? We consider him worthy a place in the Supreme Court, and by odds one of the best Superior Court Judges North Carolina has had in many years." This, in substance, is the sentiment which has met us on all sides. The whole State is alike interested in each judicial nomination, and would share our misfortune in the defeat of Judge MacRae.

The truth of our reply to this question will, we think, be realized at Laurinburg on the 16th of July:—that the vigorous canvass made by his competitor (against whom we have not a single word of disparagement) will attest the latter's popularity and his hold upon the esteem of many friends, but its final result will be to demonstrate Judge MacRae's inherent strength and the absolute unwillingness of a large majority of the district to venture upon the doubtful step of depriving him of a position in which his whole able and conscientious service has redounded to his honor, to the honor of his State and to the welfare of his people.

The Peaks, Cloud-Capped, or the Booming Surf.

Capt. W. E. Kyle, General Passenger Agent, has had issued by the Fayetteville Printing and Publishing Company a beautiful colored poster of mammoth proportions, setting forth the varied attractions of the summer resorts along the line of the Cape Fear & Yadkin Valley Railway—and truly the combination makes a very enticing *olla podrida* of the beauties and charms of nature: McFadyen, Red, Mount Vernon, Piedmont and White Sulphur Springs; the Hammocks, Wrightsville and Carolina Beach; the Pilot, the Sunratown mountains and the magnificent stretch of the Blue Ridge.

The people throughout the whole section of North Carolina traversed by the Cape Fear & Yadkin Valley Railway need hardyl go beyond hail of their own "vine and fig-tree" to enjoy all the pleasures pertaining to the most favored resorts: incomparable surf-bathing; sound and deep-sea fishing surpassed nowhere else on the Atlantic coast; mineral waters of rare healthgiving properties; a salubrious climate, in which it is a never-palling joy to breathe and live; a country fruitful of the wholesome fare and toothsome luxuries of life; and entrancing pictures of smiling plain and sheltered vale, with the supernal splendors of cloudy peak, and beetling crag, and mountain range.

New maps of Fayetteville can be obtained at Jno. Underwood's office.

Meeting of Trustees of the Graded School.

At a full meeting of the Board of Trustees of the Graded School, held at 5 o'clock on Tuesday afternoon, the treasurer submitted a gratifying annual report, showing prompt and full payment of all teachers employed, with a surplus in the treasury over all expenses.

The following officers were elected for the ensuing year: Walter Watson, President; Dr. J. W. McNeill, Vice-President; J. C. Haigh, Treasurer; C. W. Broadfoot, Chas. Haigh, R. M. Nimocks, Executive Committee.

The very satisfactory system of last year—issuing certificates of scholarship—will be continued, and it is in contemplation to introduce an additional grade, thus elevating the standard of scholarship. The Board of Trustees is as follows: Charles Haigh, A. S. Huske, T. D. Haigh, A. H. Slocomb, H. W. Lilly, C. W. Broadfoot, G. A. Thomson, H. I. McDuffie, J. W. McNeill, F. W. Thornton, W. W. Cole, B. E. Sedberry, A. B. Williams, R. M. Nimocks, W. N. Tillinghast, Geo. Rosenthal, J. M. Lamb, J. D. Brown, A. A. McKethan, D. G. McMillan, N. A. Sinclair, E. F. Moore, W. Watson, T. H. Sutton.

The fall session of the school will open on the 2nd Monday in September, and the board will meet again on the 15th of July.

The present exhibit of the work and usefulness is all that could be desired—let the community's support be hearty. Especially do we ask the "outside helpers"—those having no children of their own—to continue the liberality so gratefully appreciated last session.

Charlotte's Great Triumph.

The Music Festival at Charlotte a few days since would have been impossible in North Carolina thirty years ago. Comparatively new communities indulge in music as a pastime—later on they accept it as a study, and begin to adore it as an art.

Evidences multiply about us every day of an elevation of taste in the general appreciation of the marvelous gift of music, and of a capacity to understand it. It has been fashionable to sneer at what is sweepingly called "operatic music," but the truth is that music—like everything else demanding intellectual effort for its highest development—is fine just in proportion as it is artistic and operatic, in the best sense of the two terms. "Annie Laurie" is sweet, carried in passable time by any pair of lips, but the lips of Patti will make the melody divine.

Every community in the State has cause for gratefulness to Profs. McLean and Margraff for the conception and execution of the elaborate programme. The convention of which Mr. H. R. Novitzky was President has accomplished a great deal, and we expect much from the organization of the "North Carolina Choral Association," whose executive committee meets to-night at Greensboro.

The Creamy Blossoms of the Fleecy Field.

The cotton fields are not yet "white unto the harvest," but they are blossoming out in beautiful promise of a very fine crop—and the first blooms of the season are now fluttering in upon us thick and fast, rather earlier than the average. The following are the contributors to our peach-blow flower-vases:

Mr. Jno. Talbott on the 18th inst., out of a field of 150 acres which is a perfect beauty.

Mr. J. C. Johnson, Cedar Creek, on the 20th inst.

Capt. D. Jones, North Street, from 15 beautiful acres, on the 21st inst.

Mr. J. S. McNeill, from 2 fine acres on Haymount, on the 23rd inst.

Mr. J. A. Worth (always eminently successful in whatever he undertakes), from his place on Haymount, on the 23rd inst.

Mr. H. P. Dayis, one of our best farmers and a "right hand man" at the Cumberland county fairs, a bloom sent in on the 24th inst.

D. McD. Grady, a bloom on the 24th inst. He can grow cotton as well as Irish potatoes.

Postponement.

On account of the Cross Creek township convention, which takes place in Town Hall to-night, there will be no meeting of the "Athenæum Club" this evening. At the the meeting on Thursday evening, 3rd prox., there will be an election of officers and such literary entertainment as shall have been provided by the executive committee.

By the way, it was our intention to have made last week the commendatory mention which they so richly deserved of the contributions made to the entertainment of the club on Thursday evening, 12th inst., by Messrs. E. R. McKethan and Arch. McDuffie. They evinced talent, good taste and elocutionary gifts of high order.

Enterprise Land and Improvement Company.

The articles of incorporation for the Enterprise Land and Improvement Company, with headquarters at Fayetteville, are published in to-day's OBSERVER. The object of the Company is to build and operate a tram railway from Hope Mills to Glenecho, a distance of about 12 or 13 miles. The officers are: R. M. Nimocks, President; Alex. Sessoms, Secretary; B. R. Taylor, Treasurer.

"Watch Dog of the Treasury."

At the last annual meeting of the North Carolina Funeral Association Mr. Harry E. Sheetz, of this city, and a most estimable young man he is, too, was reelected Treasurer of the Association for another year—a position he has faithfully filled with great satisfaction.

At King's Mountain.

Evangelist Fife has conducted a ten days' meeting at King's Mountain, commencing with Sunday, 15th inst. This concludes Mr. Fife's summer campaign. His first appointment this fall is at Lincolnton, though he has numerous calls to hold meetings in various parts of the State.

China Silks. The price of these goods reduced to just one half their value at Frank Thornton's. All retail bills strictly cash.

Parasols, beautiful Fans, Silk Mitts and other seasonable goods received to-day by Frank Thornton. All retails bills strictly cash.

Religious Notes.

Rev. W. B. Oliver, pastor of the 1st Baptist Church of this city, went to Hope Mills last Tuesday to assist Rev. J. G. Fisher in an interesting protracted meeting at that place.

Rev. J. A. Spaight, Associate Editor of the *Biblical Recorder*, occupied the pulpit of the 1st Baptist Church in this city on Sunday morning last, and Rev. W. B. Harrell preached on Sunday night—both excellent discourses.

The Cedar Creek Sunday School Association adjourned on Saturday evening last, after a series of very interesting meetings.

Personal Pencilings.

Hon. Jno. Manning, Professor of Law at the University of North Carolina, is paying a visit to his son-in-law and daughter, Mr. and Mrs. Weldon W. Huske. We are glad to see him looking in excellent health.

Maj. Jesse R. McLean, of Robeson county, formerly a resident of this place, and prominently identified with our educational interests, was here this week.

Mr. and Mrs. T. S. Lutterloh have been visiting relatives at Pittsboro.

Prof. Alex. Graham, the able Superintendent of the Graded School of Charlotte, has been spending part of his vacation at Fayetteville, and is welcomed warmly by many friends.

Miss Emma Murchison has returned from a brief visit to Wilmington.

Mr. Jno. D. Williams, Jr., of Currie, made a flying visit to the city this week.

Mr. Thos. Hardin has been spending a few days here, where he has many friends.

Dr. G. B. Patterson is attending the State Dental Association in Wilmington this week.

Messrs. Jas. R. Williams and Jno. Underwood returned Tuesday from a fishing expedition to the Blackfish Grounds near Wilmington.

Mr. N. G. Wade, of Wade, was here yesterday, and says he has just returned from a trip from Weldon to Charleston, S. C., and never before in his life saw such prospects for a good cotton crop.

Cedar Creek Items.

For the Observer.]

Not having seen any items from this point for some time in the OBSERVER—which is always a most welcome visitor in our section—we subjoin a few dots.

We are having fine seasons, and crop prospects were never better. Good stands of cotton and corn have been secured, and they are growing finely. The health of our people, with slight exceptions, is good, and things are moving on smoothly.

Our little town on the new extension of the Cape Fear & Yadkin Valley Railway, only 6 miles below Fayetteville, is making wonderful progress. It has an extensive lumber and naval store trade, while buildings are erecting rapidly. The turpentine prospects are brighter at present than they have been for the past few years.

Mr. and Mrs. Jonathan Sterling are welcomed back home by their many friends after a visit of some duration with relatives in Robeson county.

We regret to lose Mr. A. F. Jones, one of the most influential citizens of this section, who now resides in Fea Hill township.

Miss Mary L. Carter and sister returned home last week from Raleigh, where they have been attending school.

Mr. D. C. Downing has returned from a flying trip to Wilmington.

Miss Arlevia Sterling, of Sampson county, is visiting friends and relatives here this week. D. W. C.

Buckhorn, N. C., June 23.

Dr. Hyatt.

Inasmuch as the community does not seem to understand what Dr. Hyatt's specialty is we take this opportunity of explaining it: An Opthalmic Optician is a well-qualified doctor of medicine who understands the anatomy of the eye and the physiology of vision, and makes the fitting of glasses a specialty. A simple optician is a man who sells glasses just as our jewelers and store keepers do, and knows no more about the business than they.

The man who travels around from house to house and solicits individual patronage is usually a spectacle swindler. Whenever a stranger comes into the community and cannot procure the full endorsement of the local doctors we advise the people to let him severely alone. Such men frequently come, and unfortunately succeed in swindling the ignorant and unsuspecting.

Dr. Hyatt is a man of character and ability, and is fully endorsed by the local doctors. He has already fitted glasses to several who were never before fitted because of lack of symmetry between the two eyes. He is supplied with the best instruments of optical science and knows how to use them.

In cases of ordinary old sight the doctor charges about the same price for his glasses that our jewelers do. In cases that require a scientific examination and the use of fine optical instruments to determine the trouble he adds a fee to the price of the glass.

He guarantees the fit and the quality of his lenses and frames. Could any man do more? Dr. Hyatt will remain in Fayetteville only a few days Parties needing his services will do well to call soon. †

Tribute of Respect.

WHEREAS, in view of the loss we have sustained by the death of our friend and associate, Mrs. G. G. HARLEY, we, the members of "The Ministering Ten" of "The King's Daughters," feel that we pay but a just tribute to the memory of the departed in saying that in her removal from our midst we mourn for one who was, in every way, worthy of our love and high esteem.

Resolved, That we sincerely sympathize with the husband of the deceased in the dispensation with which it has pleased Divine Providence to afflict him, and commend him for consolation to Him who orders all things for the best, and whose chastisements are meant in mercy.

Resolved, That this heartfelt testimonial of our sympathy and sorrow be forwarded to the husband of our departed friend.

M. HUSKE,
Leader of "The Ministering Ten."

Hot weather underwear in Gauze, Gossamer, Lisle Thread and Silk for ladies and gentlemen, at popular prices at Frank Thornton's. All retail bills strictly cash. *

CATARRH CURED, health and sweet breath secured, by Shiloh's Catarrh Remedy. Price 50 cents. Nasal Injector free. For sale at T. W. Broadfoot & Co.'s Drug Store.

NEW ADVERTISEMENTS.

Prospectus of the Fayetteville Graded School.

The next session of the above school will begin on MONDAY, SEPTEMBER 2nd, 1890, at the Donaldson Academy buildings, and will be conducted on same plan as has proven so successful for the past year. Children of parents living in Cross Creek district will be received in all the common school grades free.

Children of parents outside of Cross Creek will be required to pay fifteen dollars tuition for any of the common school grades. Patrons of the higher or Latin grades will be required, before receiving certificates of scholarship, which entitle their children to enter school, to give their notes as heretofore for tuition at the following rates

For 1st Latin grade twenty dollars.
For 2nd Latin grade twenty-five dollars.
For 3rd Latin grade twenty-five dollars.
For 4th Latin grade thirty dollars.

If sufficient encouragement is offered the school will be advanced one grade higher at tuition of thirty-five dollars, which will enable patrons to keep their sons and daughters at home for another year, and thereby save the hundreds of dollars which education costs in other schools at other places.

All patrons are asked to come forward at once and make the necessary arrangements with the Executive Committee and take their certificates of scholarship.

The Trustees desire to elect as soon as possible a full corps of teachers.

Delay in applying for certificates leaves trustees, teachers and all concerned in embarrassing doubt and uncertainty. We appeal to our patrons not to put off this matter to the last moment.

Again pointing with pride to our past record and good work, we ask for generous, hearty and prompt support.

For further particulars apply to
WALTER WATSON,
President Board of Trustees.

Campbell, *vs.* John Campbell and others, the undersigned, as Commissioner appointed for that purpose, will expose to sale at public outcry to the highest bidder, on Saturday, the 12th day of July, 1890, at 12 o'clock

A MESSAGE FOR MAMMA IN HEAVEN.

"Is this the tel'graph office?"
Asked a childish voice one day,
As I noticed the click of my instrument,
With its message from far away;
As it ceased I turned; at my elbow
Stood the merest scrap of a boy
Whose childish face was all aglow
With the light of a hidden joy.

The golden curls on his forehead
Shaded eyes of deepest blue,
As if a bit of summer sky
Had lost in them its hue;
They seamed my outfit rapidly
From ceiling down to floor;
Then turned to me with eager gaze,
As he asked the question o'er.

"Is this the tel'graph office?"
"It is, my little man,"
I said: "pray tell me what you want,
And I'll help you if I can."
Then the blue eyes grew more eager,
And the breath came thick and fast,
And I saw within the chubby hands
A folded paper grasped.

"Nurse told me," he said, "that the lightning
Came down on the wires some day;
And my mamma has gone to hoaven,
And I am lonely since she is away;
For my papa is very busy,
And hasn't much time for me,
So I thought I would write her a letter,
And I have brought it for you to see.

"I've printed it out big so the angels
Could read out quick the name,
And carry it straight to my mamma
And tell her how it came;
And now won't you please to take it,
And throw it up good and strong
Against the wires in a funder shower,
And the lightning will take it along."

Ah! what could I tell the darling!
For my eyes were filling fast;
I turned away to hide my tears,
But I cheerfully spoke at last:
"I'll do the best I can, my child,"
'Twas all that I could say;
"Thank you," he said, and then scanned the sky,
"Do you think it will funder to-day!"

But the blue sky smiled in answer,
And the sun shone dazzling bright,
And his face, as he slowly turned away,
Lost some of its gladsome light;
"But nurse," he said, "if I stay so long,
Won't let me come any more;
So good-bye; I'll come and see you again
Right after a funder shower."

"Laying by" Corn.

Southern Cultivator.]

Corn planted in March and April will soon be sufficiently advanced to require no further cultivation. Most farmers have some sort of rule to guide them as to the proper time or stage of development of the plants at which cultivation should cease. Some think the crop may be safely plowed, if done very shallow, up to the time of silking; while others insist that cultivation by the plow should not extend beyond the "bunching for tassel" stage. Both are right, and both are wrong—sometimes; which is equivalent to saying that no definite rule can be given as to the time.

If the plants are growing vigorously, and the ground is left clear of grass and in good condition by a thorough surface plowing at about the time tassels begin to appear, further cultivation will probably not be required. But if such last plowing be immediately followed by a heavy rain, we would prefer to go over the field again in a few days, with a very shallow-running cultivator, sweep or scrape, unless prevented by the fact that peas have been sown broadcast.

The practice of "hilling up" corn, either with plow or hoe, is now rarely practiced. The idea that such hilling enables the spur roots more readily to enter the soil, and that these spur roots are intended to perform the special function of feeding the fast approaching ear, is, in our judgment fallacious. We prefer to call them *brace* roots, as significant of the special office they are intended to perform—to sustain the stalks against the force of the winds.

COTTON.—Of course this crop is the most tenderly nursed and assiduously cultivated that grows on the Southern farm; while we verily believe that it yields a smaller return in proportion to labor expended than any one of several crops that are grown. The trouble is not that the market price of the staple is too low (for that is beyond control of the producer and will probably always be) but because the cost of production is too great, which is largely under the control of the producer. To much human and horse power is expended in proportion to the effect produced. The culture of a cotton crop by ordinary methods is tedious and expensive. Most farmers in the South during this and the next month will have a "nigger and a mule" guiding and pulling a light sixteen or eighteen inch sweep or scrape, twice in every cotton row, going over not more than three acres per day per plow, when a good expanding cultivator would do the same work, going only once in a row, and consequently in just half the time.

Rapid work is what is now needed, in order to keep the surface soil mellow and friable. One furrow to the row, at a time, or at once going over the crop, is enough, and it means six or seven acres per day per plow. If you have a cultivator and well laid rows and uniform in width, it is easily done. But it can be approximated with a wide sweep or heel scrape. Side both sides of an alternate row, using a scrape that will extend almost across the middle to the adjacent row. In a week or ten days return and *side* the rows of cotton left before. This stirs nearly the entire surface every week or ten days by the expenditure of the same labor that was before expended in accomplishing, practically, the same work every two or three weeks.

We should now aim to encourage plant development. Whatever checks or retards growth tends to earlier fruiting, which, in its turn, tends to check or dwarf the plants. Keep the plows going on the plan suggested, running shallow and rapidly.

A Process of Mending.

Travis—Oh, dear! Early summer always breaks me up. I feel as if I was going all to pieces.

Bloodgood—I'll tell you what you want to do, then.

Travis—What's that?

Bloodgood—Take a run right after dinner and get a stitch in your side.

☞ Weary Searcher (looking for board)—I hope, madam, you do not object to children?

Boarding-House Mistress—Oh, not in the least. I have nine myself.

Weary Searcher (backing off)—Um—er—if I decide to take the rooms, I will send you a postal. Good day.

☞ Who is the ideal woman? is the question that is now being discussed. First find out how many men there are in the world, and you can estimate exactly how many ideal women there are. Every man has an ideal woman of his own.—*Asheville Citizen.*

Its Virtues as a Soporific.

"Grindstone, have you ever tried a raw onion as a remedy for sleeplessness?"

"Tried it once, Kilgordan."

"How did it work?"

"Had to go to sleep to get rid of the taste."

He Must Have a Diploma.

Cumso—Young Gurley is a college graduate, isn't he?

Fangle—I think he must be. He doesn't know what he is talking about half the time.

ADVERTISEMENTS.

NOTHING SUCCEEDS LIKE SUCCESS.

The reason RADAM'S MICROBE KILLER is the most wonderful medicine is because it has never failed in any instance, no matter what the disease, from LEPROSY to the simplest disease known to the human system.

The scientific men of to-day claim and prove that every disease is

CAUSED BY MICROBES,

—AND—

RADAM'S MICROBE KILLER

Exterminates the Microbes and drives them out of the system, and when that is done you cannot have an ache or pain. No matter what the disease, whether a simple case of Malaria Fever or a combination of diseases, we cure them all at the same time, as we treat all diseases constitutionally.

Asthma, Consumption, Catarrh, Bronchitis, Rheumatism, Kidney and Liver Disease, Chills and Fevers, Female Troubles in all its forms, and, in fact, every Disease known to the Human System.

Beware of Fraudulent Imitations!

See that our Trade-Mark (same as above) appears on each jug.

JOHNSTON'S VEGETABLE
NOLANDINE!

The Great Virginia Vegetable Alterative,

BLOOD PURIFIER AND RENOVATOR

—OF THE—

HUMAN SYSTEM!

Has been used most successfully in the following Diseases, as the Certificates below will attest:

For Liver Complaint, Jaundice and Bilious Derangement. In Mercurial, Blood Poison, Scrofulous and all Eruptive Diseases, Costiveness, Indigestion Flatulence, Periodical Sick Headache and Female Complaints.

READ THE CERTIFICATES.

From *Virginia Medical Monthly* (September number, 1889) Landon B. Edwards, M. D., editor and proprietor, Richmond:

"*THE NOLANDINE COMPANY*, of Richmond, Va., begin an advertisement in this issue of preparations which have received the highest kind of professional endorsements for the cure of chills and fever, functional liver troubles, etc. The virtues of the drugs named seem to rest in the special manner of their combination. During a recent visit to the laboratory we were courteously shown every detail of the manufacture."

I have used your vegetable preparation, "*NOLANDINE*," and find it a valuable agent in the treatment of functional diseases of the liver. Its action on that organ and all secreting glands is equal to that of calomel, and to my mind, the only yet discovered substitute for this time-honored remedy. It is, furthermore, entirely free from constitutional effects too often observed from the use of mercurials; and, in many cases, where mercurials have been incautiously administered, I have witnessed the beneficial results of "*NOLANDINE*," in eliminating and modifying the most distressing after symptoms. I will add, in regard to your Fever and Ague Preparation, that I prescribed it for my mother, who had been a sufferer from chills and fever for twelve months. She had taken quinine until it had ceased to have any effect on her. One-half bottle of my *NOLANDINE* for chills and fever relieved her entirely of the chills and restored her to good health.

I cheerfully recommend a trial of *NOLANDINE* to the profession, believing that it will stand their test

Very truly yours,
A. TRENT CLARKE, M. D.

The very high character of the testimonials attesting the merits of your vegetable preparation, *NOLANDINE*, induced me to make a test of your *NOLANDINE* proper in a very desperate case of Hydrothrax [dropsy of the chest], combined with Ascites [dropsy of abdomen]. The usual remedies known to our profession had been successfully administered without producing anticipated effects. The diseases yielded to the action of your *NOLANDINE*. I very gratefully state that my patient is now enjoying the blessings of a restoration to good health, and now, four months since administering your *NOLANDINE*, there is not a symptom of recurrence.

I had several opportunities of testing the merits of your *NOLANDINE* for chills and fever in cases which had resisted the usual remedies for months, and had the satisfaction to see them entirely broken and permanently cured after a course of your *NOLANDINE*.

I know that I will incur the displeasure of the profession by departing from its usages, but candor and facts compel me to call the attention of my professional brethren to the valuable properties of your preparation, and trust that prejudice will not deter them from its use. I have found the action of your *NOLANDINE* on the liver and secretions more than equal to calomel, which is an additional recommendation.

Very respectfully,
A. G. JONES, M. D.

409 EAST CLAY STREET, RICHMOND, VA., April 19, 1887.

J. W. Johnston, Proprietor of Nolandine:

During the last twelve months I have had frequent opportunities of testing the curative properties of your *VEGETABLE NOLANDINE* in the following diseases, and in not a single case did it fail to accomplish all that you claim for it: Dyspepsia and other catarrhal affections of the stomach and bowels, catarrhal affections of the kidneys and bladder, *uterine catarrh* and irregularities, malarial complications and habitual constipation, and as a general tonic and alterative, I have found it very efficacious.

Yours truly,
JAS. A. GARLICK, M. D.

IRWIN P. O., GOOCHLAND, VA., August 1, 1889

To the Nolandine Company, Richmond, Va.:

From personal experience I can very cheerfully recommend *NOLANDINE* for all it claims, and, in this opinion, I am borne out by others who have tested its merits.

Yours truly,
G. H. PALMER MORTWOOD.

TAYLORSVILLE, HANOVER COUNTY, VA.

The Nolandine Company, Richmond, Va.:

Gentlemen:—I have been a great sufferer from blood poison, which caused large sores to come all over my legs and feet, so that I could hardly wear my shoes, when I received a bottle of *NOLANDINE* from a friend. I began using it at once, and in less than ten days it had cured me completely. I think it the best remedy in the world. I am yours very respectfully,
WM. M. TERRY.

To the Nolandine Company:

June 1, 1889.

Permit me to add my testimony to the curative properties of *NOLANDINE*. For many years I have suffered from varicose veins. Twelve months ago I struck my leg against a chair, breaking one of the veins. The wound thus made could not be healed, except for a short time, then break out afresh. At times I suffered untold misery from local fever and most insufferable burning sensation After using two (2) bottles of your *VEGETABLE NOLANDINE* the ulcerated places healed, the swelling disappeared, natural sleep was restored, and my nervous system composed. As a vermifuge, *NOLANDINE* acted specifically on one of my children. As a blood purifier and general tonic your *NOLANDINE* has no equal. Gratefully yours,
D. B. PROSSER.
At S. S. Cottrell's Son, 1302 Main Street, Richmond, Va.

RICHMOND, VA., October, 1886.

My wife and three children returned to this city from Charles City County, where they contracted chills and fever, and their systems thoroughly saturated with malarial poison. One bottle of *JOHNSTON'S VEGETABLE NOLANDINE* cured my entire family. My wife suffered for five years with dyspepsia in its most aggravated form, and was permanently cured by *VEGETABLE NOLANDINE*, using only two bottles.
J. B. BURTON.

RICHMOND, VA., July, 1889.

This is to certify that I have known of the superior qualities of JOHNSTON'S VEGETABLE NOLANDINE for the past ten years, and during that time, at intervals, have had occasion to use it in person, and in my family, and have always found it a sure cure for derangements of the liver and kidneys, indigestion, headache, etc., and a good tonic.
L. C. DAVIS, 804 North Fifth Street.

ROBIN'S STATION, CHESTERFIELD CO., VA., March 25, 1885.

Mr. J. W. Johnston:

Dear Sir.—Having suffered for years with a chronic affection of the kidneys, derangement of the liver, and my general system charged with malarial poison, I found no relief from treatment of medicine until I used VEGETABLE NOLANDINE. I am now free from above complaints, and to NOLANDINE alone I am indebted for this restoration to health. I honestly recommend it to all persons suffering from the above diseases.
WILLIAM DICKSON, Superintendent of Coal Mines.

RICHMND, VA., May, 1885.

I can cheerfully recommend JOHNSTON'S VEGETABLE NOLANDINE to any one suffering from liver or kidney complaints and bilious derangement of the system. Its prompt and permanent action in my case affords me pleasure to recommend it to others similarly affected.
CHARLES P. SELDEN, Hardware Merchant,
Formerly with Singer Sewing Machine Co.

409 EAST CLAY STREET, RICHMOND, VA., March 10, 1886.

Mr. Jos W. Johnston:

Dear Sir.—I have used your NOLANDINE, and would cheerfully recommend it as a valuable medicine for malarial diseases and for promoting appetite, and a splendid tonic. For the relief of the pains consequent upon female weakness and irregularities I consider it without an equal.
Respectfully,
MRS. L. M. BELL.

OFFICE CHESAPEAKE AND OHIO RAILWAY COMPANY,
RICHMOND, VA., March 1, 1885.

I lived on lower James River for eight years in the malarial district. My sytem was thoroughly charged with this deadly poison. I exhausted the usually prescribed and domestic remedies without any benefit. I was induced to try JOHNSTON'S VEGETABBE NOLANDINE. Before using two bottles my liver was aroused from its long torpor, and I am now enjoying the best of health. My wife and children derived the same benefits from NOLANDINE.
J. A. WYATT.

FLEET, KING AND QUEEN CO., VA., January 31, 1887.

I was afflicted with chills and fever during the fall of last year. I could stop them with quinine, but they wouldn't stay stopped; they would return the 7th, 14th, 21st, or 28th days. A friend gave me a part of a bottle of NOLANDINE, and I used it according to directions, and I have not had a chill since. I am in good health and weigh as much or more than I ever did.
E. S. WILSON.

509 NORTH EIGHTH STREET, RICHMOND, VA.

Mr. Johnston:

Dear Sir:—Your NOLANDINE has quite come up to all its promises. So valuable do I consider it as a family medicine that, unsolicited by yourself, I offer my certificate.
Yours truly,
MRS. E. F. PATTON.

RICHMOND, VA., July 13, 1887.

J. W. Johnston, Proprietor Nolandine:

Dear Sir:—I have taken your NOLANDINE for habitual constipation of eight years' standing, during which time I have tried many preparations, but I did not receive any relief until I used your preparation, from which I have received immediate and permanent benefits. Was also suffering with malarial and blood poison. I am now free from all such complications and, I am happy to say, enjoying exceptionally good health.
Yours truly,
J. B. DOWDEN.

412 EAST BROAD STREET, RICHMOND, VA.

J. W. Johnston:

I feel it but just to recommend your valuable medicine, NOLANDINE, for any trouble caused by torpid liver, or constipation produced by morphine or any drug used to subdue pain. As a tonic for delicate temales it is unsurpassed.

The above you are heartily welcome to use any way you deem best, and I will personally tell any one what it will do or application. Respectfully,
MRS. A. E. ANTHONY.

RICHMOND, VA., October 1, 1889.

To whom it may concern:

For twelve months I was a fearful sufferer from chronic eczema, during which time I was in the hands of a most skillful physician, faithfully using his remedies, internal and external, without deriving any benefit whatever. I suffered night and day with the most intolerable itching, continuous headaces, loss of sleep, appetite and strength. My kidneys and nervous system were fearfully deranged, and my body was covered with innumerable boils. By taking three (3) bottles of JOHNSTON'S VEGETABLE NOLANDINE I have been restored to perfect health. I regard NOLANDINE as the best blood purifier and the most powerful tonic ever compounded, and I am not alone in this belief.
Very respectfully yours, &c.,
H. B. GRUBBS.

Price $1 Per Bottle. Six Bottles for $5.
